

“MINIMUM STANDARDS”

Subchapter A.

§744.101

Purpose and Definition: Fill in the blank with the correct term:

Terms: Before or After School Care, Caregiver, Pre-Service Training, School Age Child, Single Use Area, Natural Environment, Universal Precautions, Adult, Enrollment, Attendance, Critical Illness, Corporal Punishment, Group Activities, Program Director, and Caregiver.

1. Activities, materials, curriculum, and environment that are developmentally consistent with the chronological age of the child being served is _____ - _____.
2. When referring to a child’s attendance, the physical presence of a child at the operation on any given day or at any given time, as distinct from the child’s enrollment in the operation is _____.
3. The infliction of physical pain on a child as a means of controlling behavior. This includes, but is not limited to spanking, hitting, slapping, thumping, or rapping a child is _____ - _____.
4. Area not routinely used for children’s activities, such as a bathroom, hallway, storage room, cooking area of a kitchen, swimming pool, and storage area is _____.
5. The list of names or numbers of children who have been admitted to attend an operation for any given period of time. The number of children enrolled in an operation may vary from the number of children in attendance on any given day is _____.
6. A director who over sees your program at multiple operations and supervises a site director at each operation is _____.

7. An approach to infection control where all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, and other blood-borne pathogens is _____.
8. Activities that allow children to interact with others in large or small groups. Group activities include, but are not limited to, storytelling, show and tell, organized games, and singing is _____.
9. Settings that are natural or normal for all children of an age group without regard to ability or disability. For example, the primary natural group setting for a school age child with a disability would be a play group or program, or whatever setting exists for school age children without disabilities is _____.
10. Training given to a person who has no previous experience in regulated child-care operations, and relevant training in specified skills development offered by the operation is _____ - _____.
11. An illness requiring the immediate attention of a health-care professional is _____.
12. A person whose duties includes the supervision, guidance, and protection of a child. As used in this chapter, the term means a person who meets the minimum education, work experience, and training qualifications required under Subchapter D of this chapter (relating to personnel) is _____.
13. A child who is five years of age and older, and will attend school at or away from the operation in August or September of that year is _____ - _____.
14. An operation that provides care before and or after or before customary school day and during school holidays, for at least two hours a day, three days a week, to children who attend pre-kindergarten through grade six _____.
15. A person 18 years old and older is _____.
